

## Recommended Products To Use During or After the Installation of Your Custom Flooring

We are not affiliated with these products or their manufacturers in any way. There are other products that would be acceptable substitutes for these products. These are merely a suggestion of some products that are readily available and have been helpful to past customers. The exception to this is Bostick Greenforce glue, which we specifically recommend as the glue used on all glue applications of Mountain Craft hardwood flooring.

### Flooring Underlayment:

- Fortifiber Aquabar B:  
<https://www.homedepot.com/p/Fortifiber-500-sq-ft-36-in-Wide-x-167-ft-Long-x-7-mil-Thick-Aquabar-B-Tile-Underlayment-Roll-70-195/202592567>

This is an NWFA approved underlayment for Hardwood Flooring. It is readily available for pickup at most Home Depot locations, and is available from various online retailers. It is approximately 35-40.00 for a roll that will cover 500 sq. ft.

### Felt/Rubber Pads:

These will protect your hardwood flooring from excessive wear from your furniture feet. There are many options from various online retailers or at brick and mortar locations such as Target or Walmart.

### Flooring Protection:

Use a protective covering on your flooring after it is installed if there are other construction or remodeling tasks yet to be done. This will help prevent damage.

- Ramboard is a good product readily available at Lowes, Home Depot, 84 Lumber, or other retailers.
